Creating an Array

Arrays are objects in columns and rows arranged to form a rectangle. The factors in a multiplication sentence form the rows and columns. The product is the total number of objects in the rectangle.

There are 5 rows, with four in each row. There is a total of 20. So $5 \times 4 = 20$

Created by The Wright Room!

Analyze the array, then write the multiplication sentence.

_____ X _____ = _____

Created by The Wright Room!

Analyze the array, then write the multiplication sentence.

_____ X _____ = _____
